## REVIEW OF PUBLIC ASSISTANCE

OLD AGE ASSISTANCE. In September, 10,824 recipients of Old Age Assistance received grants totalling \$431,570.00 at an average payment of \$39.87. The caseload and expenditures represented an increase of 0.2% over corresponding figures for the previous month but the average payment was one cent lower than that of the previous month.

A total of 362 Old Age Assistance applications were under consideration during the month. Of these, 165 were approved for assistance, 35 were denied or otherwise disposed of and 165 applications were carried forward into October.

128 OAA cases were closed during the month with the death of the recipients accounting for the closing of exactly half of these cases.

AID TO DEPENDENT CHILDREN. Expenditures for Aid to Dependent Children declined 1.2% below the previous month but were 15.1% above the amount expended a year ago (see table I, page 4). Grants totalling \$133,418.00 were distributed to 1,902 families in behalf of 4,885 dependent children for September. In August, 1,907 families with 4,925 children received this assistance. Inasmuch as in previous years the caseload has increased between August and September, the decrease this year may be indicative of a levelling off in the steady rise of the ADC caseload which began shortly after the end of the war.

AID TO NEEDY BLIND. Assistance to recipients of Aid to Needy Blind was granted to 452 eligible persons at an average payment of \$41.48. Total payments of \$18,749.00 were slightly below payments for the previous month.

During the month 11 cases were approved for Aid to Needy Blind and 13 were removed from the rolls.

GENERAL RELIEF. Montana counties expended \$83,634.21 for General Relief during September. All counties except Petroleum reported such expenditures. 1,987 different households received General Relief grants for subsistence, medical care, hospitalization, burial or for combinations of two or more types of relief. Although expenditures for subsistence and burials increased, expenditures for medical care and hospitalization were, respectively, 23.2% and 5.3% below the previous month.

REPORT ON THE PROGRESS OF THE WORK

The work of the Commission during the year 1954 has been devoted to the study of the problems of the development of the economy of the USSR and the role of the state in this process. The Commission has held a number of meetings and has received a large number of suggestions and proposals from the various departments of the Government and from the scientific community.

A total of 1000 suggestions and proposals have been received from the various departments of the Government and from the scientific community. These suggestions and proposals have been carefully studied and have been taken into account in the work of the Commission.

The Commission has also held a number of meetings with the various departments of the Government and with the scientific community in order to discuss the results of its work and to receive their views on the Commission's proposals.
